The programme is conducted with a time span of 8 semesters comprising of 39 theory papers, 12 laboratory courses, 1 seminar, 1 minor project and 1 major project. The scheme of evaluation includes both internal assessment and university examination. The laboratory sessions and project works are continuously evaluated for awarding the grades. The internal evaluation for the theory subjects is done with the help of two formal internal examinations in each semester, various assignments and surprise test papers.

An Industrial visit in the Sixth Semester is promoted to enable them understand practical application of theoretical concepts. Extra Lab and theory sessions are planned and implemented based on student performance during semesters. The institution has a media centre where video sessions on subjects by experts from premier institutes are screened, as and when needed. Audio visual aids are extensively used in theory and tutorial sessions. Students are encouraged to work on community service projects alongside faculty, so as to learn implementation of technical knowledge to the society a veritable ingredient in societal development. Psychological counseling, for stress management, to handle cutthroat competition and boosting of EQ (Emotional Quotient), is a vital ingredient of teaching learning process. Innovative schemes of providing reference texts from Library and digital library, for online references, cater in plenty to academic requirements. In addition to that, complete web courses and video courses prepared by NPTEL have been made available in the intranet for the free access of students and faculty.
